Letters To The Editor

The Tampa Tribune

Published: December 14, 2007

We Must Do Our Part

Regarding "Area Blessed With Charitable Support" (Our Opinion, Dec. 8):

The Community Foundation of Tampa Bay strives each day to advance the physical, intellectual and social capital of west central Florida. The Foundation directs its resources to buildings and structures and it invests in building the organizational capacity of nonprofit organizations throughout the metropolitan area. Subsequently, the Foundation leaves its legacy, in part, by how it helps other organizations succeed.

The continued success of the Foundation is critical to the future of our area. We must each do our part - not only during this "season of giving" but each and every day to ensure the Foundation derives benefit from the blessings each of us has accumulated in our lifetimes. We can leave our legacy, in part, by how we help the Foundation.

MICHAEL AUDINO

Land O' Lakes

The writer is the chief operating officer of the Charitable Giving Resource Center.
